This Additional Information to the PDS is issued by Pinnacle Fund Services Limited ABN 29 082 494 362 AFSL 238371 ('we', 'our', 'us' or 'Responsible Entity'). Information in this Additional Information to the PDS forms part of the Product Disclosure Statement ('PDS') dated 30 June 2018 for the Plato Australian Shares Core Fund ('Fund').

You should read this information together with the Fund's PDS in its entirety before making a decision to invest in the Fund.

The information in this Additional Information to the PDS is general information only and does not take into account your objectives, personal financial situation or needs. You should consider the appropriateness of this information having regard to your objectives, financial situation and needs. We strongly recommend that you seek professional advice from a financial adviser before deciding to invest in the Fund.

All monetary amounts referred to in this Additional Information to the PDS are given in Australian dollars and all phone/fax numbers are to phone/fax numbers in Australia (unless otherwise stated).

1. How the Fund works

How the Fund is valued

All assets within the Fund are valued every business day. We may also revalue the Fund less frequently in certain circumstances.

The gross asset value of the Fund equals the market value of the assets. The net asset value of the Fund is obtained by deducting any liabilities of the Fund from the gross asset value of the Fund.

Unit Prices

Impact of investing just before the end of a distribution period

After a distribution is paid, the unit price usually falls by an amount similar to that of the distribution per unit. This means that if you invest just before a distribution, the unit price may already include income that you would be entitled to receive at the distribution date. Consequently, by investing just before a distribution, you may have some of your capital returned as income. This could affect your taxation position and we recommend you seek professional taxation advice.

Applications

Investing directly

We reserve the right not to accept (wholly or in part) any application for any reason or without reason. If we refuse to accept an application, any monies received from you will be returned to you without interest.

For an application to be valid, it must be correctly completed and it must comply with the designated minimum investment amounts referred to in the PDS and be appropriately signed by the applicant(s). The Responsible Entity may, however, at its discretion, accept amounts less than the minimum initial investment amounts.

If, for any reason, we are unable to process your application (for example, the Application Form is incomplete or incorrectly completed or we are not satisfied that we have received the necessary proof of identification requirements to meet our obligations under AML/CTF law), the application monies will be held by us in a non-interest bearing trust account for up to 30 days (while we endeavour to verify your identification information or obtain any necessary outstanding information) after which we will return the application monies to you.

Indirect Investors

We authorise the use of the PDS as disclosure to persons who wish to access the Fund indirectly through an Investor Directed Portfolio Service ('IDPS'), IDPS-like scheme or a nominee or custody service (collectively referred to as master trusts or wrap accounts).

An IDPS is an investment and reporting service offered by an operator. People who invest through an IDPS, master trust or wrap account

are Indirect Investors.

Indirect Investors do not themselves become investors in the Fund. It is generally the operator of the IDPS, or their custodian or nominee, that invests for them that has the rights of an investor of the Fund.

When investing through an IDPS, master trust or wrap account, Indirect Investors should complete the documents required by the operator of these services and not the Fund's Application Form. Enquiries should be directed to the IDPS operator.

Switches

You may switch from the Fund to another fund managed by Plato Investment Management Limited (the 'Investment Manager', 'Plato') and operated by us at any time.

A switch operates as a withdrawal of units in one fund and the investment of units in the other fund and therefore may have taxation implications. Please contact a licensed financial or taxation adviser for further information.

There is no switching fee applicable as at the date of this document. However, a buy/sell spread or a contribution fee may apply to the relevant fund(s) at the time of the switch. Before making a decision to switch, you should read the relevant PDS.

Different classes

Where permitted under the constitution, we may issue more than one class of units in the Fund, with different applicable fees and possibly other different conditions of issue. The class of units offered under the PDS is the only class of units currently on issue.

Withdrawals

You can withdraw some or all of your investment at any time, by written request, signed by the appropriate signatories.

Please note that we only make payments to your nominated bank or financial institution account. No third party payments will be allowed. There may be circumstances, as permitted under the Fund constitution and Corporations Act, where your ability to withdraw from the Fund is restricted.

The following text contains further information on restrictions on withdrawals and should be read in conjunction with the PDS.

We may delay or suspend a withdrawal request where we are unable to realise certain assets due to circumstances outside our control, such as when there is restricted or suspended trading in assets held by the Fund, or where the Fund becomes non-liquid as defined by the Corporations Act.

The Fund will be non-liquid under the Corporations Act if it has less than 80% of liquid assets (generally cash and marketable securities). If the Fund is non-liquid, withdrawals from the Fund may only be possible if we make a withdrawal offer in accordance with the Corporations Act.

We are not obliged to make such an offer. However, if we do you will only be able to withdraw your investment in accordance with the terms of a current withdrawal offer. If an insufficient amount of money is available from the assets specified in the withdrawal offer to satisfy all withdrawal requests, the requests will be satisfied proportionately among those investors wishing to withdraw from the Fund.

Distributions

How you receive income from your investment

The type of income you receive from your investment depends on the underlying asset classes within the Fund. Income (such as interest, dividends, realised capital gains and any entitlements to franking credits) from the Fund's investments will be paid to you via income distributions.

Where the investment activities of a Fund result in a net revenue loss (including any carried forward revenue losses from a prior period), no income distribution will be made in the period. Losses will be carried forward to be offset against future distributable income of the Fund.

Where net capital profits are realised, they are typically held over until the period ending 30 June each year and distributed thereafter, however, we retain the discretion to distribute them during any distribution period.

If held over, their value would be reflected in the unit price.

Distribution reinvestment

Where you elect to reinvest your distributions, the distribution reinvestment price is the unit price at the end of the distribution period (without the applicable buy-spread) less the distribution per unit payable.

By electing to reinvest your distributions, you are deemed to have directed us to apply such monies towards the subscription for the number and class of units as already held, at the relevant distribution reinvestment price. All units allotted as part of the distribution reinvestment will rank equally in all respects with existing units in the same class.

At the time the distribution reinvestment price is set, all information that would, or would be likely to, have a material adverse effect on the realisable price of the units will be publicly available.

Investors may cancel their participation at any time by giving notice to the Responsible Entity. The cancellation will apply from the date of receipt, as long as it is at least 10 days prior to a distribution date, or such future date as nominated by you. Retrospective cancellations are not permitted.

The Responsible Entity may cancel or suspend distribution reinvestments, or modify the terms by which distribution reinvestments are permitted.

2. How we invest your money

Plato's philosophy

Plato's philosophy is centred on the belief that the market is a complex, adaptive system and is therefore never fully efficient. These market inefficiencies are derived from informational, behavioural and structural (e.g. tax) sources. Some of these sources of return are exploited on a long-term, strategic time horizon and others are extracted on a short-term, tactical basis. Plato's investment process can be best characterised as a "systematic implementation of fundamental ideas".

3. Fees and costs

The following section provides detailed information about the fees and costs you may be charged for investing in the Fund along with further information about the additional fees and costs that could apply to your investment. These fees and costs may be deducted from your investment, from the returns on your investment or from the Fund's assets as a whole. This information should be read in conjunction with the PDS.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Type of fee or cost	Amount	How and when paid
Fees when your money moves in or out of the Fund¹		
Establishment fee The fee to set up your investment.	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Withdrawal fee The fee on each amount you withdraw out of your investment.	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Management costs The fees and costs for managing your investment. ²	Management fee 0.41% p.a.	The management fee is payable to the Investment Manager for managing the investments of the Fund. The management fee is calculated on the net asset value of the Fund, reflected in the daily unit price and payable monthly in arrears from the Fund. Extraordinary expenses are paid from the Fund assets as and when incurred. ³
Service fees Switching fee The fee for changing investment options	Nil	Not applicable

1. Transaction costs (buy/sell spread) apply. Refer to 'Buy/Sell spread' below.
2. Refer to 'Management costs' below. Fees and costs may be negotiated with wholesale clients – please refer to 'Differential fees' in 'Additional explanation of fees and costs' below for further information. Fees are inclusive of Goods and Services Tax ('GST') and of any applicable reduced input tax credits ('RITC').
3. Refer to 'Extraordinary expenses' below.

Additional explanation of fees and costs

Management costs

The management costs, in relation to the Fund, are generally the administration and investment fees and costs (excluding transaction costs) of the Fund.

These costs include:

- Responsible Entity fees;
- administration costs
- safekeeping fees;
- audit costs;
- legal costs; and
- borrowing costs.

The Investment Manager pays management costs out of the management fees it receives. Therefore, for this Fund, the management fee will reflect the total management costs.

Extraordinary expenses

In general, the management fee is all that will be charged. However, under certain circumstances, extraordinary expenses may be paid directly by the Fund. Extraordinary expenses are not of an ongoing nature.

Examples of this type of expense include:

- convening of a unitholders' meeting;
- termination of the Fund;
- amending the Fund constitution;
- defending or bringing of litigation proceedings; and
- replacement of the Responsible Entity.

Buy/Sell spread

When you withdraw all or part of your investment or apply for units you will incur a buy/sell spread (they are also referred to as buy/sell transaction costs). The buy/sell spread is currently 0.20% of the unit price in and 0.20% of the unit price out. For example, if you invested \$100,000 in the Fund and the unit price was \$1.00, the cost of your buy/sell spread would be \$200. The amount is added or subtracted equally from the Fund's unit price, being the net asset value of the Fund divided by the number of units on issue, to get both the issue price and withdrawal price. The buy/sell spread is an additional cost to you.

These transaction costs recoveries are paid to the Fund to ensure equality between those investors leaving or joining and those remaining or already in the Fund. They are not fees paid to the Responsible Entity or the Investment Manager.

Additional transactional and operational costs

Additional transactional and operational costs associated with dealing with the Fund's assets may be recovered from the Fund. Transactional and operational costs, other than the buy/sell spread, may include brokerage, investment settlement fees, clearing costs and applicable stamp duty when underlying assets are bought or sold.

The only additional transactional and operational costs incurred by the Fund are brokerage costs. For the year ended 30 June 2016, the brokerage cost was calculated to be \$52.13 based on a \$100,000 holding (approximately 0.05% of the total average net assets). The brokerage cost (net of buy/sell spread recovery) was calculated to be \$43.54 based on a \$100,000 holding (approximately 0.04% of total average net assets).

Incidental fees

We may charge fees where provided for under the Corporations Act.

Differential fee arrangements

The Responsible Entity or the Investment Manager may agree with wholesale clients (as defined in the Corporations Act) to rebate some of the management fee on a case by case basis. We take into account relevant factors which may include the size of the investment. Such rebate arrangements will be by individual negotiation.

Fees for Indirect Investors

Indirect Investors must also refer to the fees and costs payable for the IDPS, master trust or wrap account they are investing through. The IDPS operator will be the registered holder of the units and may charge you fees that are different or in addition to the Fund's fees detailed in this section and the PDS. You should refer to the offer document for the relevant IDPS, master trust or wrap account for more information.

Changes to fees and other costs

We reserve the right to change fees and other costs, subject to any limitations under the Fund constitution and applicable law. We will give investors 30 days' notice prior to increase in any fees.

We do not recover any fees from the Fund as the Investment Manager pays us a fee from the management fees it receives from the Fund. The Fund constitution provides for various fees, specifically an application fee, withdrawal fee and management fee, which we do not currently recover from the Fund (as management fees are paid from the Fund to the Investment Manager and not the Responsible Entity).

For more information on fees and costs

ASIC Class Order 14/1252 applies in relation to this PDS.

If you would like to better understand how our fee structure may impact your investment in the Fund, we recommend that you speak to your financial adviser or visit ASIC's website at www.moneysmart.gov.au where a fee calculator is available to help you compare the fees of different managed investment products.

4. Taxation

WARNING: Investing in a registered managed investment scheme is likely to have tax consequences. You are strongly advised to seek professional tax advice.

The taxation implications of investing in the Fund can be complex and depend on a number of factors, including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units on capital account or revenue account. The following tax comments have been prepared on the assumption that:

- the investor holds the units on capital account as a long-term investment;
- the Fund qualifies as an attribution managed investment trust ('AMIT') within the meaning of section 995-1 of the Income Tax Assessment Act 1997 and the Responsible Entity of the Fund elects to apply the AMIT regime to the Fund; and
- the Fund has made an irrevocable "capital election" to apply the Capital Gains Tax ("CGT") provisions pursuant to section 275-115 of the Income Tax Assessment Act 1997.

Income of the Fund

The Fund has been established as an Australian resident unit trust. The Fund is required to determine its tax or income components (e.g. assessable income, exempt income, non-assessable non-exempt income, tax offsets and credits of different characters) for the financial year. The investor will be provided with a statement for tax purposes after 30 June each year to assist the investor in determining their tax position. This tax statement will advise the investor of the share of the tax or income components of the Fund (if any) to include in the investor's tax return. Generally, no Australian income tax will be payable by the Responsible Entity of the Fund where investors are attributed with all tax or income components of the Fund each year.

In the case where the Fund makes a loss for tax purposes, the Fund cannot distribute the loss to investors. However, subject to the Fund meeting certain conditions, the Fund may be able to take into account the losses in subsequent years. The Fund's investments and activities are likely to give rise to income, dividends, capital gains and losses.

Taxation of Australian resident investors

Investors are generally subject to tax on their share of the tax or income components of the Fund each year. Investors are treated as having derived their share of the tax or income components of the Fund directly on a flow through basis.

The way in which investors are taxed will depend on the character of the income they receive (for example, franked dividends to which franking credits may attach, capital gains, foreign income to which foreign income tax offsets may attach, or interest income).

We will provide you with an annual taxation statement after 30 June each year. The annual taxation statement will outline your share of the tax or income components of the Funds to which you are entitled to in that financial year, including any foreign income tax offsets and franking credit entitlements.

To the extent that an investor's share of the net income of the Fund is attributable to a capital gain made by the Fund, the investor will include the capital gain in their assessable income. Certain investors may be entitled to apply the relevant Capital Gains Tax ('CGT') discount to work out the net capital gain to include in their assessable income. In normal circumstances, you should expect the Fund to derive income and/or capital gains each year.

If the Responsible Entity discovers understatements or overstatements of taxable income and tax offsets in prior years, the Responsible Entity has the ability under the AMIT regime to deal with these understatements and overstatements in the financial year in which they are discovered. That is, the distribution statements in the discovery year may be adjusted to take into account these understatements or overstatements from a prior financial year, rather than re-issuing amended distribution statements for the prior financial year to which the understatements or overstatements relate to.

The amount of the tax or income components of the Fund which the investor is required to include in their assessable income may be different to the cash distributions received by an investor in respect of their units. This is because the distributions received on the units is determined by reference to the returns received in respect of the Fund, whereas the tax or income components of the Fund is determined by reference to the overall tax position of that Fund.

An investor may be required to make, in certain circumstances, both upward and downward adjustments to the cost or cost base of their unit holdings. This occurs where during a financial year there is a difference between:

- (a) the total of the amounts (money or property) that an investor is entitled to from the Fund and the tax offsets that are allocated to an investor during the year; and
- (b) the tax or income components included in that investor's assessable income or non-assessable non-exempt income.

If the amount in (a) exceeds the amount in (b), the cost or cost base of the investor's units in the Fund should be reduced by the excess amount. This results in either an increased capital gain, or a reduced capital loss, upon the subsequent disposal of the investor's units in the Fund. Should the cost base be reduced to below zero, the amount in excess of the cost base should be a capital gain that is to be included in the investor's taxable income.

Conversely, where the amount in (a) falls short of the amounts in (b) during a financial year, the cost or cost base of the investor's units in the Fund should be increased by the shortfall amount. **Withdrawals from the Fund and disposal of units**

Withdrawal or disposal of a unit in the Fund is the disposal or cancellation of a CGT asset by an investor and a CGT event for tax purposes. To the extent that the proceeds exceed the cost base on the unit, you will make a capital gain. However, if the proceeds are less than your reduced cost base, you will make a capital loss. Generally, a capital loss can only be used to offset against capital gains derived in the current or a future tax year.

An individual, trust or complying superannuation entity or a life insurance company that holds their Units as a complying superannuation/FHSA asset may be able to claim the benefit of the CGT discount if they have held the units for over 12 months. A corporate investor cannot claim the benefit of the CGT discount. Gains and losses realised by an investor who holds their units on revenue account will be taxable as ordinary income or an allowable deduction, as the case may be, and will not qualify for the CGT discount.

Non-resident individual unit holders

The above taxation summary is only for investors who are residents of Australia for tax purposes. The tax treatment of non-resident investors in the Fund depends on the investor's particular circumstances and the provisions of the relevant Double Tax Agreement between Australia and the country of residence. It is important that non-resident investors seek independent professional taxation advice

before investing in the Fund.

The Fund may be required to withhold tax on part or all of the distributions made to non-resident investors.

Goods and Services Tax ('GST')

Unless otherwise stated, the fees quoted in the PDS and this Additional Information to the PDS are inclusive of the net effect of GST and RITC.

Tax reforms

The expected tax implications of investing in the Fund may change as a result of changes in the taxation laws and interpretation of them by the Courts and/or the Australian Tax Office.

It is recommended that investors obtain independent taxation advice that takes into account your specific circumstances regarding investing in the Fund and the potential application of any changes in the tax law.

Tax File Numbers and Australian Business Numbers

You are not required to quote your Tax File Number ('TFN') or, if you have one, an Australian Business Number ('ABN')¹ or claim an exemption from providing a TFN.

However, if a TFN or ABN is not provided or an exemption is not claimed, we are required by law to withhold tax from distributions at the top marginal tax rate plus the Medicare Levy. If you are making this investment on behalf of a business or enterprise you carry on, you may quote your ABN instead of a TFN.

Foreign Account Tax Compliance Act ('FATCA')

There are certain consequences that may occur if you apply to invest and you are, or become, a US entity, a US citizen, reside in the US or have some connection with the US. These consequences may potentially be adverse to you. If this applies to you, we encourage you to seek professional taxation advice.

Based on current guidance, the Responsible Entity believes that the Fund must comply with certain requirements under FATCA, which applied from 1 July 2014. Accordingly, we may request that you provide certain information about yourself in order for us to comply with the Fund's FATCA obligations.

Whilst the Responsible Entity believes that it is extremely unlikely that during the period of this PDS, the electronic version of the PDS will be tampered with or altered in any way, the Responsible Entity cannot give any absolute assurance that this will not occur.

Authorised Representative Form

Appointment of authorised representative

A person appointed as your authorised representative is authorised by you to:

- apply for units in the Fund and sign all documents necessary for this purpose;
- make requests to redeem all or some of your units (receipt by the authorised representative or as directed by the authorised representative fully discharges our redemption obligations to you); and
- make written requests for information regarding your units.

The Responsible Entity may act on the sole instructions of the authorised representative until the Responsible Entity is notified that the appointment of the authorised representative is terminated.

You can cancel your appointment of the authorised representative by giving the Responsible Entity 14 days' prior notice, as permitted by law. Termination of an appointment does not prejudice the following statement. By appointing an authorised representative, you agree to release, discharge and indemnify the Responsible Entity from and against any loss, expense, action, claims or other liability which may be suffered by you or brought against the Responsible Entity for any actions or omissions by you or your authorised representative, whether authorised or not by you or your authorised representative. Any request for information by an authorised representative will be responded to in writing only. Such written responses will be sent to the authorised representative's email/fax/residential address nominated on the Authorised Representative Form.

If an authorised representative is a partnership or a company, any one of the partners or any director of the company is each individually deemed to have the powers of the authorised representative. It is sufficient for the Responsible Entity to show that it had reasonable grounds for belief that an action was taken or a request given by or for an authorised representative when determining whether an action or request was taken or given by the authorised representative.
